Classification	INTERNAL

Baseline readings

Field sheet transcribed from the 2021 campaign. Clock positions use the old convention (12 o'clock = riser guide), so 3 and 9 o'clock are swapped compared with later surveys.

Location	Nominal (mm)	Measured (mm)	Date	Inspector
R-3 EL +12.0 m, 12 o'clock	22.2	22.0	2021-06-10	R. Kamali
R-3 EL +8.5 m, 9 o'clock	22.2	21.2	2021-06-10	R. Kamali
R-3 EL +8.5 m, 6 o'clock	22.2	21.0	2021-06-10	R. Kamali
R-3 EL +5.0 m, 6 o'clock	22.2	21.5	2021-06-11	R. Kamali
R-3 EL +2.0 m, 6 o'clock	22.2	22.0	2021-06-11	R. Kamali

Coating in good condition apart from light rust staining at EL +8.5 m. CP potentials -0.98 V vs Ag/AgCl below the water line.

Fictional test fixture. Region South Gas Operator is not a real company.
